

THE STATES-GRAPHIC

"THE ONE PAPER IN MOST HOMES—THE ONLY PAPER IN MANY HOMES."

VOL. XLVI. NO. 19

BROWNSVILLE, TENNESSEE, APRIL 7, 1916

\$1.00 PER YEAR.

OLIVER NO. 1 CULTIVATOR
(Disc Attachment)

FARMERS, PLEASE TAKE NOTICE

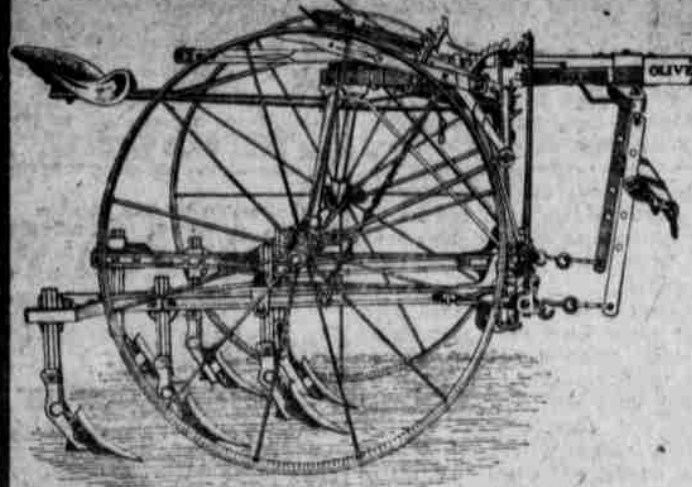

Some of the most progressive farmers of Haywood county are owners of the Oliver No. 1 Cultivator and are highly pleased with it.

One of this number has four on his farm at present—two purchased last year and two the year before.

We sell this cultivator with the positive understanding that if it does not do the work we claim for it, that the machine may be returned to us. If there is, or ever has been a dissatisfied owner of an Oliver Cultivator in Haywood county we have not been informed of his name. Does this record not speak plainer than any words of ours in commendation of the Oliver?

Come in and let us show you this great time and labor saver. Let us show you how it will pay for itself. Let us show you how strong and rigid it is built, and hence how long lived it is, how well balanced, and how quickly adjustable; how easy to guide, easy to raise, easy to lower, one lever operating both gangs and yet a separate lever for each individual gang.

It is built for service and will serve you well. It will lighten your labor and increase your bank account. Drop in and see the machine yourself and let us sell you one—and remember, if after trying it, you are dissatisfied with results, we don't ask you to keep it. Is not this a fair guarantee?

GET YOUR SEED CORN AT HOME

HOME GROWN SEED WILL PRODUCE MORE.

Buy Your Seed Corn on the Ear and Test Every Ear You Use, Good Rule to Follow by Our Farmers.

The average yield of corn in Tennessee per acre is 25 bushels, in Arkansas 20 bushels and in Mississippi 18 bushels. The rainfall, the length of the growing season and the summer temperature of these three states are the kind to produce 100 bushels of corn an acre. The causes for general low yield are worn out soil, shallow plowing, scrub seed and poor cultivation.

There is a general movement to build up the land with cowpeas, velvet beans, lesjeda and bur and crimson clover. Thin, worn out, clay upland that yields 8 to 10 bushels of corn has been built up in Shelby county in three years by the use of these soil building crops to yield 60 bushels an acre. Yields on many farms can be doubled this year by the planting of seed from high yielding strains and thorough preparation of the land and cultivation. It will not pay to plant any land to corn that will not produce over 20 bushels to an acre with good seed, good preparation of the land and thorough tillage. Every bushel above this yield only may be counted as profit.

The best place to get seed corn is on the farm where the seed is to be planted, if well bred corn has been grown on the farm. The next best place to get seed corn is from a farm in the neighborhood that raises well bred corn. Where there is no well bred corn either on the farm or in the neighborhood, seed should be secured from the point nearest to the farm where high yielding corn is raised.

In one test, seed corn grown in the county averaged 12 bushels an acre more than equally as well bred corn grown in adjoining counties, and 22 bushels an acre more than seed corn grown in adjoining states. In another test, seed corn on the farm yielded three bushels an acre more than choice seed grown 60 miles from the farm, and nine bushels more an acre than high yielding strains of corn grown in other states.

When it is necessary to buy seed corn buy it on the ear. I have examined a good many lots of seed corn this winter and have found a considerable number of ears that were enlarged at the top, but were weak thro middle and very pointed. Such ears come from plants with weak vitality and the stalks grown from these ears are likely to be barren if the season is unfavorable at the time the corn tassels.

By buying seed corn on the ear the purchaser can look over each ear, reject the poor shaped ones, and be sure that every ear he uses for seed is a good appearing one. A good ear of corn is medium in size for the variety to which it belongs, cylindrical in shape, tapering gradually to the tip with the butt end not enlarged, and the kernels on the butt end as fully matured as those on the middle of the ear. There should be little space between the rows of kernels and the kernels should fill out the space next to the cob.

It pays to test every ear to be used for seed. Many tests have been made of the difference in yielding powers between different ears of the same variety. It has been found that where the ears of the same variety look as alike as twins that there may be a difference of 5 to 100 bushels per acre in the field from different ears.

There is No Art in Taking Medicine. Just follow directions on every bottle of "Plantation" Chill Tonic and see how quickly those dreaded chills will leave you. It leaves the liver in healthy condition and yet contains no calomel. Price 50c.

ATTENTION, FARMERS!

The following letter received by Forrest & Dupree from Gale-Hooper Co., one of the largest manufacturing concerns in the country is self-explanatory and should have weight with our farmers:

Gentlemen:—No man knows what the financial conditions will be six months later. It is the duty of every man to prepare himself and help prepare his community for what ever may happen.

The planting season has arrived. Will you kindly do us the favor of having a personal talk with each of your farmer customers, and urge upon each the necessity of his being prepared by raising all the food for the people and the feed for all the animals on his farm for twelve months? This will make safe the farmer, the merchant, the banker and the community, no matter what the price of crops next fall.

It will help greatly if you spend a day or two meeting your farm customers on their farms.

With best wishes and kindest personal regards, Sincerely yours, George S. Hooper, Manager.

COUNTY COURT IN QUARTERLY SESSION

APPROPRIATION MADE FOR SALARY OF DEMONSTRATOR.

Equalization Board Elected—Appointments of High School Board Affirmed—Committee Appointed to Examine the Jail.

The Haywood County Court met in quarterly session Monday morning with only three members absent. The report of Chas. Tipton was unanimously adopted. In addition to the regular routine work the following special work was done:

Jurors for the next term of circuit court were elected as follows: District No. 1—T. J. Rice and T. P. Stuart; District number 2—H. E. W. 3—John Freeman and Ocie Hawkins; District No. 4—M. Thomas and G. B. Warren; District No. 5—G. T. Lett and R. W. McElroy; District No. 6—W. A. Lucas and George Ascoe; District No. 7—R. A. Kasey, B. A. Powell, A. H. Bradford and Ed. Harston; District No. 8—John Hall and J. T. Parks; District No. 9—John Holmes and W. H. Whitburn; District No. 10—A. J. Elmore and Watson Bain; District No. 11—R. A. Williams and Frank Winkler; District No. 12—Luther Pittman and W. T. Bond.

The following members of the High School Board were elected for the time indicated: J. C. Norvell, one year; J. O. Rouse, one year; Alsey Mann, two years; G. Graves, two years; J. O. P. and three years; Jas. Tipton, three years.

Members of the equalization board were elected as follows: B. W. Stuart from District No. 1; T. J. Castellow from District number five; T. D. Russell from District number six; Guy Burton from District number seven and E. E. Walker from District number eleven.

The court appropriated \$500 toward paying the salary of an agricultural and live-stock expert. The committee previously appointed to select a man for this position reported that they had selected Mr. Elrod of Putnam county. Mr. Elrod is a graduate from the agricultural department of the University of Tennessee and comes highly recommended. He will enter upon the discharge of his duties at once.

W. H. Max, Powell and W. Tipton, three years.

port to the county. Any needed repairs necessary to place the building in a good sanitary condition and the chairman was empowered to expend such an amount as might be found necessary for this improvement, said amount not to exceed \$500.

County Superintendent Ogilvie made to the court a complete report of the school conditions of the county, including a financial report of receipts and disbursements.

Esq. S. E. McGee made a motion that all applicants for release from jail and road tax should be required to appear before the court in person in making application for such release, and further, that no man owning property and possessing stock or tools which could be used in lieu of personal labor should be excused. This motion prevailed.

After making the usual appropriations and fixing the tax levy for the current year the court adjourned.

THE BEST

IS WHAT YOU WANT—IS WHAT WE GIVE

And It Costs No More

The economical selling of groceries has been reduced to a science at this store. It is the logical result of many years of conscientious endeavor to satisfy our customers and give them the best possible returns for their money. It is the result of learning from long experience how to buy the right article at the right time and at the right price, and it enables us to sell you as we buy.

This week we want to suggest to you a few articles that are especially in demand at this season of the year.

Fresh Vegetables. Fresh Bread Daily. Assortment of Chocolates. Sliced Ham and Bacon. and Bon Bon Candy. Oil Stoves.

SHORT & COLLINS

REVENUE COMMITTEE REPORTS TO COURT

COUNTY SCHOOL WARRANTS BURNED.

Official Records of Officers Examined and Found in First Class Condition in Every Respect—A Splendid Showing.

To the Honorable County Court of Haywood County, Tennessee:

We, your undersigned Revenue Commissioners, would most respectfully report as follows, to wit:

We hereby certify that we have examined and checked the reports of B. L. Capell, clerk of the circuit court of Haywood county, Tennessee, and J. T. Gray, Jr., clerk and master of the chancery court of said county and state, made to this court at its January term, A. D. 1916, and found said report in all respects correct.

We further certify that we have examined and checked the books and report of N. B. Keathley, clerk of the county court of said county and state for the quarter ending January 1st, A. D. 1916, and find said books in all respects correct, and further find that he has reported and paid to the trustee of said county all funds due to said trustee for said quarter from said clerk.

We further certify that we have examined and checked the books and report of Jas. Tipton, chairman of the county court of said county and state, made to this court at its January term, A. D. 1916, and find said report in all respects correct.

We further find that he has properly entered all warrants and that he has carried out the instructions of this court wherein he was ordered by resolution duly presented, carried and adopted by this court at its January term, A. D. 1896, to make separate entries in his book charging the trustee of said county with the several amounts assessed under the several heads to conform with the levy made by this court with which the trustee is chargeable.

We further certify that we have examined the books and records of F. R. Ogilvie, superintendent of public instruction in said county, and find same neatly and accurately kept.

We further certify that we have burned county school warrants to the amount of \$10,100.92.

We further certify that we have burned high school warrants to the amount of \$1,774.44 and county warrants to the amount of \$30,120.93, said burning completed on the 1st day of April, A. D. 1916.

All of which is most respectfully submitted, this 3rd day of April, A. D. 1916.

Joe T. Mann, J. W. Byrn, Livingston N. Taylor,

Death Lurks in a weak heart. so on first symptoms use "Renovine" and be cured. Delay and pay the awful penalty. "Renovine" is the heart's remedy. Price \$1.00 and 50c.

MILLER'S ANTISEPTIC OIL KNOWN AS SNAKE OIL

Will Positively Relieve Pain in Three Minutes.

Try it right now for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pains in the head, back and limbs, corns, bunions, etc. After one application pain disappears as if by magic.

A never-failing remedy used internally and externally for Coughs, Colds, Croup, Sore Throat, Diphtheria and Tonsillitis.

This oil is conceded to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected part at once. As an illustration, pour ten drops on the thick set piece of sole leather and it will penetrate this substance through and through in three minutes.

Accepted no substitute. This great oil is golden red color only. Every bottle guaranteed: 25c and 50c a bottle or money refunded. Sold by Copeledge Drug Co.
